

New Products 2008-2009

BA 501 Insta-Gater

Super fast, super stable bike carrier for most ute trays.

- RQL - Ratcheting Quick Load System
- Quick Installation in ute tray - no drilling or bolting required
- No wheel removal, no frame contact
- Fits wheels from 20-29" and up to 3" wide tires
- Thule One Key - Lock included

BA 558-P Tandem Bike Carrier

Simply the quickest and easiest bike carrier for tandem bikes.

- Unique pivoting fork mount design enables easy one-person tandem loading
- Fits Thule square bar only
- For use with tandem bikes
- Rear tray can be removed for boot/hatch clearance and carrying conventional bikes
- Minimal hardware means super fast installation
- 75" extruded aluminium wheel tray and stainless steel hardware, for years of use
- Included wheel strap accommodates high profile rims

BA 593-1 Front Wheel Holder

A universal front wheel holder for all factory installed racks.

- Fast wheel loading and unloading
- Fits all quick release wheels from 24" to 29"
- Folds down flat when not in use
- Fits Thule square, Rapid Aero, Rola Rhino and most factory installed racks

BA 594 Sidearm (Down Hill Bike Carrier)

An ingenious solution for carrying any style bike on your roof.

- RQL - Ratcheting Quick Load System - load bikes in 10 seconds or less!
- Fits wheels from 20-29"
- Wheel tray fits tire widths from 20mm road to 2.6" MTB tires
- No wheel removal, no frame contact
- Mounts to Thule square bar. Use Xadapt 1 to fit Aerobars
- One Key System - lock included

BA 699 or 836 Round Trip Bike Carry Case

Like our bike racks, the Round Trip keeps your bike safe and sound when you take it on the road.

- Accommodates both road bikes and mountain bikes
- Gear bags for clothes, tools and more make packing and unpacking your bike painless
- Rugged polyethylene construction
- Can be locked for added security
- Dimensions: 103 x 67 x 23cm
- Weights 16kg

BA 821 Low Rider

A versatile fork block that lets you create your own bike carrying and storage options.

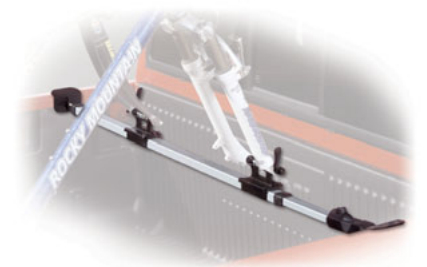

- Can be mounted to virtually any flat surface (hardware not included)
- Heavy-duty metal construction, simple and strong
- 9mm quick release skewer
- Pass-through hole for securing bikes with LA 538 cable lock
- Carries 1 bike

BA 822 Bed Rider (Ute Bike Rack)

This telescoping rack allows you to transport bikes in style and without damage

- High quality corrosion resistant aluminium construction
- Telescoping design fits full size and small ute trays - compatible with ute liners
- Utilises expanding cam mechanism and generous rubber feet to hold carrier in place without drilling
- Upgrade to carry more bikes with BR1
- Lock bikes with LA538 cable lock
- Carries 2 bikes
- One Key System - locks included
- Extends to 184cm

BA 916

T2 - Quick Load

Quick bike loading in seconds. Accommodates most bikes regardless of frame design, suspension, or wheel size with the convenience of rear-mount access.

- No wheel removal, no frame contact
- Folds up for storage and down for rear vehicle access!
- Fits a wide range of bikes
- Fits wheels 20-29" and up to 3" wide tires
- One Key System - Locks included
- BA STL compatible
- Model BA 916 - 2 bike, 50mm receiver

BA 918

T2 - Bike Add-on

Expand your T2 easily into a 4 bike carrier with its 2 bike add-on accessory.

- For 50mm receivers only
- One Key System - Locks included

BA 955

No Sway Cage

The easiest way to keep your bikes stable when using our new Hitching Post Pro carriers.

- Redesigned anti-sway device is accessible at bike-arm level
- Removable for easier bike installation
- Designed to work exclusively with T3 cradle
- Sold as 2 pack (1 Cage needed per bike)
- Included on Ridgeline and Revolver

BA STL2

Snug Tite Lock

Perfect security for locking T2 and Hitching Post Pro to receivers.

- Designed in conjunction with Kryptonite™, combines an anti-wobble feature with locking security
- Integrated dust cover keeps lock clean
- Included on Ridgeline and Revolver
- One Key System - Lock included

LC 866

Escape II Luggage Bag

When a cargo box just won't fit into the storage closet, the Escape II offers box-like protection with the convenience of a compact storage. Loaded with high end ease of use features and maximum weather protection.

- Maximum water-resistance with taped seam construction keeps contents dry
- Internal foam insert construction helps maintain bag shape for easier packing and cleaner look
- Packaged in its own roll-top bag
- Heavy-duty tarpaulin construction
- 420L 102 x 85 x 45cm

MA 232

Step-up

Need a lift? This heavy-duty portable step provides the extra height needed to load your gear on top of any vehicle.

- Easy to use step provides the added height needed to load gear on any tall vehicle
- No-slip platform ensures sure-footed loading
- Heavy-duty construction
- Attachment strap attaches easily to either front or rear tire, regardless of wheel-well clearance
- Includes carrying bag and conveniently folds flat for easy storage when not in use
- 136kg rating

RB 684

Terrapin Hitch Box

A full-featured cargo box that combines the same ease-of-use and modern styling of rooftop boxes with the convenience of rear vehicle access.

- Silver-metallic finish, rugged ABS construction
- Includes pre-wired tail lights
- Drainage plug/valve makes clean-up easy
- Keep gear organised with internal cargo management system
- Licence plate adapter included
- Carrying capacity: 50kg, 420 L
- Requires 50mm receiver
- One Key System, locks included
- Cargo box dimensions: 111 x 56 x 53cm (internal)

If you would like any more information on these products please call 02 9439 2526. Thank you.

RB 850

Clamp Lamp

No more struggling with unloading/loading your gear in the dark. The new Clamp Lamp attaches to your rack or box to help you with those late night arrivals or departures.

- Hands-free lighting with integrated spring loaded clamp
- Easily attaches to roof top boxes, roof racks and lots more
- Rechargeable: comes with 12V DC charger for recharging in car.
- Integrated storage compartment for recharger and cord
- Weather resistant and shock-proof construction
- Approximate running time 2.5 hours
- Extra bulb included

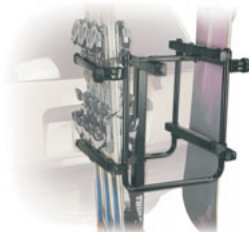

SA 987XT

Hitch Ski Carrier

Quickly converts our hitch and spare tire racks into a convenient ski or snowboard carrier.

- Carries skis and boards upright for maximum capacity
- Rubber coated steel locking arm for security
- Can be used with most Thule hitch racks and spare wheel bike carriers
- Up to 6 pairs of skis or 4 snowboards
- One Key Lock System - Locks included

SA FM1

Fat Mouth Ski Attachment

Sets the standard for speed and flexibility when mounting ski carriers to multipurpose and factory racks.

- Conveniently transfers from one style crossbar to another
- No need to purchase a new clamp when you attach to a different rack
- Universal mounting design accommodates most removable and factory rack crossbars
- Custom fit for multipurpose and factory installed racks
- Fits Rola and Rhino Racks

WA 830

Kayak Stacker

The most efficient way to carry multiple whitewater kayaks.

- Four boat maximum capacity
- Tying boats down is easier than ever with the upper bridge design
- Easy carrier transfer from vehicle to vehicle with proven universal hardware
- For a clean look when not in use, the stacker folds down flat
- Fits Thule square, Rapid Aero, Rola, Rhino and most factory installed racks
- Includes one pair ratcheting tie downs, two straps and buckle protectors

WA 839 (or 855)

Geta Grip - Lockable Paddle Holder

Fully lockable multipurpose holder for carrying paddles, oars and masts.

- Fully lockable holder for paddles, oars, masts and other similar sized items
- Capacity to transport and lock multiple paddles. Fits items up to 4" diameter
- Integrated cable secures items and prevents theft of expensive paddles
- Fits Thule square, Rapid Aero, Rola, Rhino and most factory installed racks
- One Key System - Locks included

WA 847

Outrigger

Great for the lone paddler, the extension bar provides the extra hand when loading a boat by yourself.

- Retractable bar extends from inside load bar and provides a pivot point for loading boats on tall vehicles
- Allows for full length of load bar to be utilised for other accessories
- Prevents unwanted boat to vehicle contact
- Strength and great looks are provided by a steel bar that is encased with aluminium
- Integrated load stop prevents boat from sliding off bar when loading and unloading
- Fits Thule square bars only (see price list, page 2)
- extends 66cm

WA 855-1 (or 838)

Quickdraw - Bow & Stern Kayak Tie-Downs

A simple ratchet system lets you do away with bungee cords and time-consuming knots.

- Super-tough ratchet does all the work so you don't have to
- No knots to tie. No wrestling with bungee cords
- Steel hooks attach easily to boat and vehicle
- Great for securing all types of long loads and hoisting items
- Includes 2 assemblies (ratchet, 13" polypropylene rope, steel hooks attachment strap)
- Bow and Stern tie down required when carrying kayaks or canoes

If you would like any more information on these products please call 02 9439 2526. Thank you.

WA 875XT Hydro Glide for Factory Racks

The slickest and easiest way to load a kayak. Friction-free design for super smooth loading.

- Smooth loading achieved with low friction, felt lined saddle
- For use with WA 878XT Set-To-Go saddle
- Fits Thule square, Rapid Aero, Rola, Rhino and most factory installed racks
- Maximum hull conformance and kayak support provided by large surface area saddle
- Includes one ratcheting tie down, strap and buckle protector

WA 877XT Roller Coaster Hydro Glide

Easy kayak loading and maximum support with integrated roller and saddle

- Easy loading with optimally positioned roller
- Roller eliminates boat to load bar contact when loading boat
- Hydro-Glide saddles center and guides boat while loading and gives a large surface area to support the hull
- Fully adjustable for different boat styles and sizes
- For use with 1/2 x WA 874
- Mounts to Thule squares bars only
- Includes one ratcheting tie down, strap and buckle protector

WA 878XT Set-To-Go - Kayak Cradle for Factory Racks

The Set-To-Go saddle provides the perfect combination of hull conformance and lateral stability.

- Maximum kayak protection and transport stability provided by soft, adjustable saddle
- Fits Thule square, Rapid Aero, Rola, Rhino and most factory installed racks
- Includes one ratcheting tie down, strap and buckle protector
- Sold as a pair. Complete system with additional saddle carrier

WA 887

Slip Stream NEW

Fully adjustable, complete kayak platform ensures contact-free loading on any vehicle

- Adjustable sliding base system
- Holds kayak at its strongest section (bulkhead)
- Fits Thule square, Rapid Aero, Rola, Rhino and most factory installed racks
- Length of unit 178cm
- Cradles 145cm apart
- Width of base unit 59cm

WA 897XT Hullavator

When it comes to kayak transportation its better to "lower the bar" than to raise it.

- Reduces lift height required to load and unload a kayak by 100cm
- Reduces effort required to lift boat with gas assist shocks that help raise boat onto the vehicle roof
- No need to reach top of vehicle to secure boat to carrier - boat strapping is easily done with carrier in down position
- Superior boat protection with integrated padded support, accommodates kayaks up to 36" wide and 45kg
- Mount side by side with other accessories as the lift system only requires approx 25" of load bar space for mounting
- Includes lift system, integrated padded support, mounting hardware, and all straps necessary to transport one kayak
- Fits Thule square and Rapid Aero load bars
- One Key System - locks included

WA 997

Goal Post Hitch

The hitch mounted GoalPost provides a rear mounted load bar on vehicles equipped with a 50mm receiver.

- Easy height adjustment for different size trucks with telescopic design
- Includes Thule load bar for attachment of watersport carriers - 146cm
- 2 load stops included for extra load stability
- Works great with Thule's Kayak cradles for long load stability
- Anti-wobble design keeps GoalPost snug in receiver
- For 50mm receivers only
- From bottom hole out 19cm
- Height 165cm
