

For easiest loading the new premium load bar with Bi-directional sliding functionality

Bi-directional sliding, 60cm in each direction.

Ergonomic combination of lever and rubberized grip-panels.

Red-color indication for open-/closed position.

Premium Scandinavian design rewarded with If-Design award.

- Bi-directional sliding (60cm in each direction), for easiest loading of bulky load on car roof.
- Bi-directional sliding, to avoid scratches in car and dirt on your clothes.
- One-hand release functionality with rubberized grip-panels for most ergonomic user interface.
- Maximum user security through snap-lock functionality & red-color indications for open/closed position.
- Premium Scandinavian design rewarded with If-Design award.
- Lockable to prevent un-authorized use of the product.
- City crash approved for 90kg according to ISO-norm.
- Fit all Thule Rapid System load carrier feet.
